TANVIRUL HOQUE FAYSAL

CSE UNDERGRADUATE | IT OPERATIONS & INFRASTRUCTURE

PROFESSIONAL PROFILE

Computer Science and Engineering undergraduate with practical experience in Windows/Linux installation, PC troubleshooting, Cisco networking labs, and backend application development. Practiced DNS/DHCP and Active Directory in lab environments, and built business applications using Java, Spring Boot, MySQL, and MongoDB. Interested in corporate IT support and infrastructure operations.

EDUCATION

B.Sc. in Computer Science & Engineering
Southeast University, Bangladesh
Expected 2027 | CGPA: 3.70

Higher Secondary Certificate (Science)
Dhaka Imperial College | Dhaka Board
2021 | GPA: 5.00/5.00

CERTIFICATIONS

Mile2 - Certified Penetration Testing Engineer (CPTE)
Issued: 06/10/2026
Credential ID: 30076-178-111-0340

Applied AI Deep Learning with Python for Data Analysis
WINGS Institute | Aug 2026

ACTIVITIES

Southeast University Computer Club

DevOps training (in progress)

LANGUAGES

Bangla - Native

English - Professional working proficiency

RELEVANT SKILLS

IT Systems & Support
Windows installation and troubleshooting, Linux setup, PC hardware/software support, Microsoft Office / Microsoft 365, Active Directory (lab practice)

Networking & Diagnostics
TCP/IP, IP addressing, subnetting, routing, switching, VLANs, ACLs, DNS/DHCP, NAT, Cisco IOS, GNS3, Packet Tracer, Wireshark, Nmap

Backend Development & Databases
Java, Python, Spring Boot, REST APIs, JPA/Hibernate, MySQL, MongoDB, Git

SELECTED PROJECTS

Enterprise Network & BGP Lab | Cisco / GNS3 / Packet Tracer

- Configured and tested static routing, RIP, OSPF, and eBGP across multi-router Cisco topologies; checked connectivity and diagnosed routing issues.
- Practiced VLANs, ACLs, NAT, DNS/DHCP, QoS, and MPLS in simulated network environments.

Bakir Khata - Loan Management Platform | Completed

- Developed loan, installment, payment, priority, and repayment-status functionality using Java and Spring Boot.
- Integrated MySQL with JPA/Hibernate for loan and payment records; used MongoDB for community chat.

ReedKeep - Personal Library Application | Completed / Active

- Completed an active, standalone personal-library application using Java, Spring Boot, and MongoDB; focused on library functionality.

FolioCircle - Library & Community Platform | In Progress

- Developing a larger library and community platform with Java, Spring Boot, and MongoDB; community functionality remains in progress.

PRACTICAL IT LAB WORK

Systems and Infrastructure Practice

- Installed and troubleshot Windows/Linux systems and practiced PC hardware/software support.
- Practiced Active Directory tasks and configured DNS/DHCP in Cisco Packet Tracer labs.
